

CLUB 1891 DEAN'S CIRCLE

Did you know that pharmacy was one of the first four areas of study at WSU?

Established in 1891, we are proud of the legacy we have built together. In 1913, Jessie L. Sims made history when she was the first African American to graduate from the University and our college. In 1970 we established our Drug Information Center as a service to Washington and began our pilot program for students to work in Spokane hospitals.

Today, we remain on the cutting edge of research in natural product-drug interaction, cancer, nanotechnology and much more, while educating student pharmacists to be leaders in health care.

Help us progress into the future by joining our Club 1891 Dean's Circle today.

*Mark Leid, class of 1983
Dean and Professor*
