

RE- GREENERATION OF MALDEN

STREETSCAPING AND
WAYFINDING

Lorena Zepeda Fuertes

Goal:

Redesign the streets of Malden

A wooden boardwalk made of light-colored planks winds through a vast, grassy dune landscape. The path curves from the foreground towards the middle ground, disappearing into the distance. The terrain is covered in tall, green grasses and some low-lying purple flowers. In the background, there are rolling sand dunes under a heavy, overcast sky. The overall mood is serene and natural.

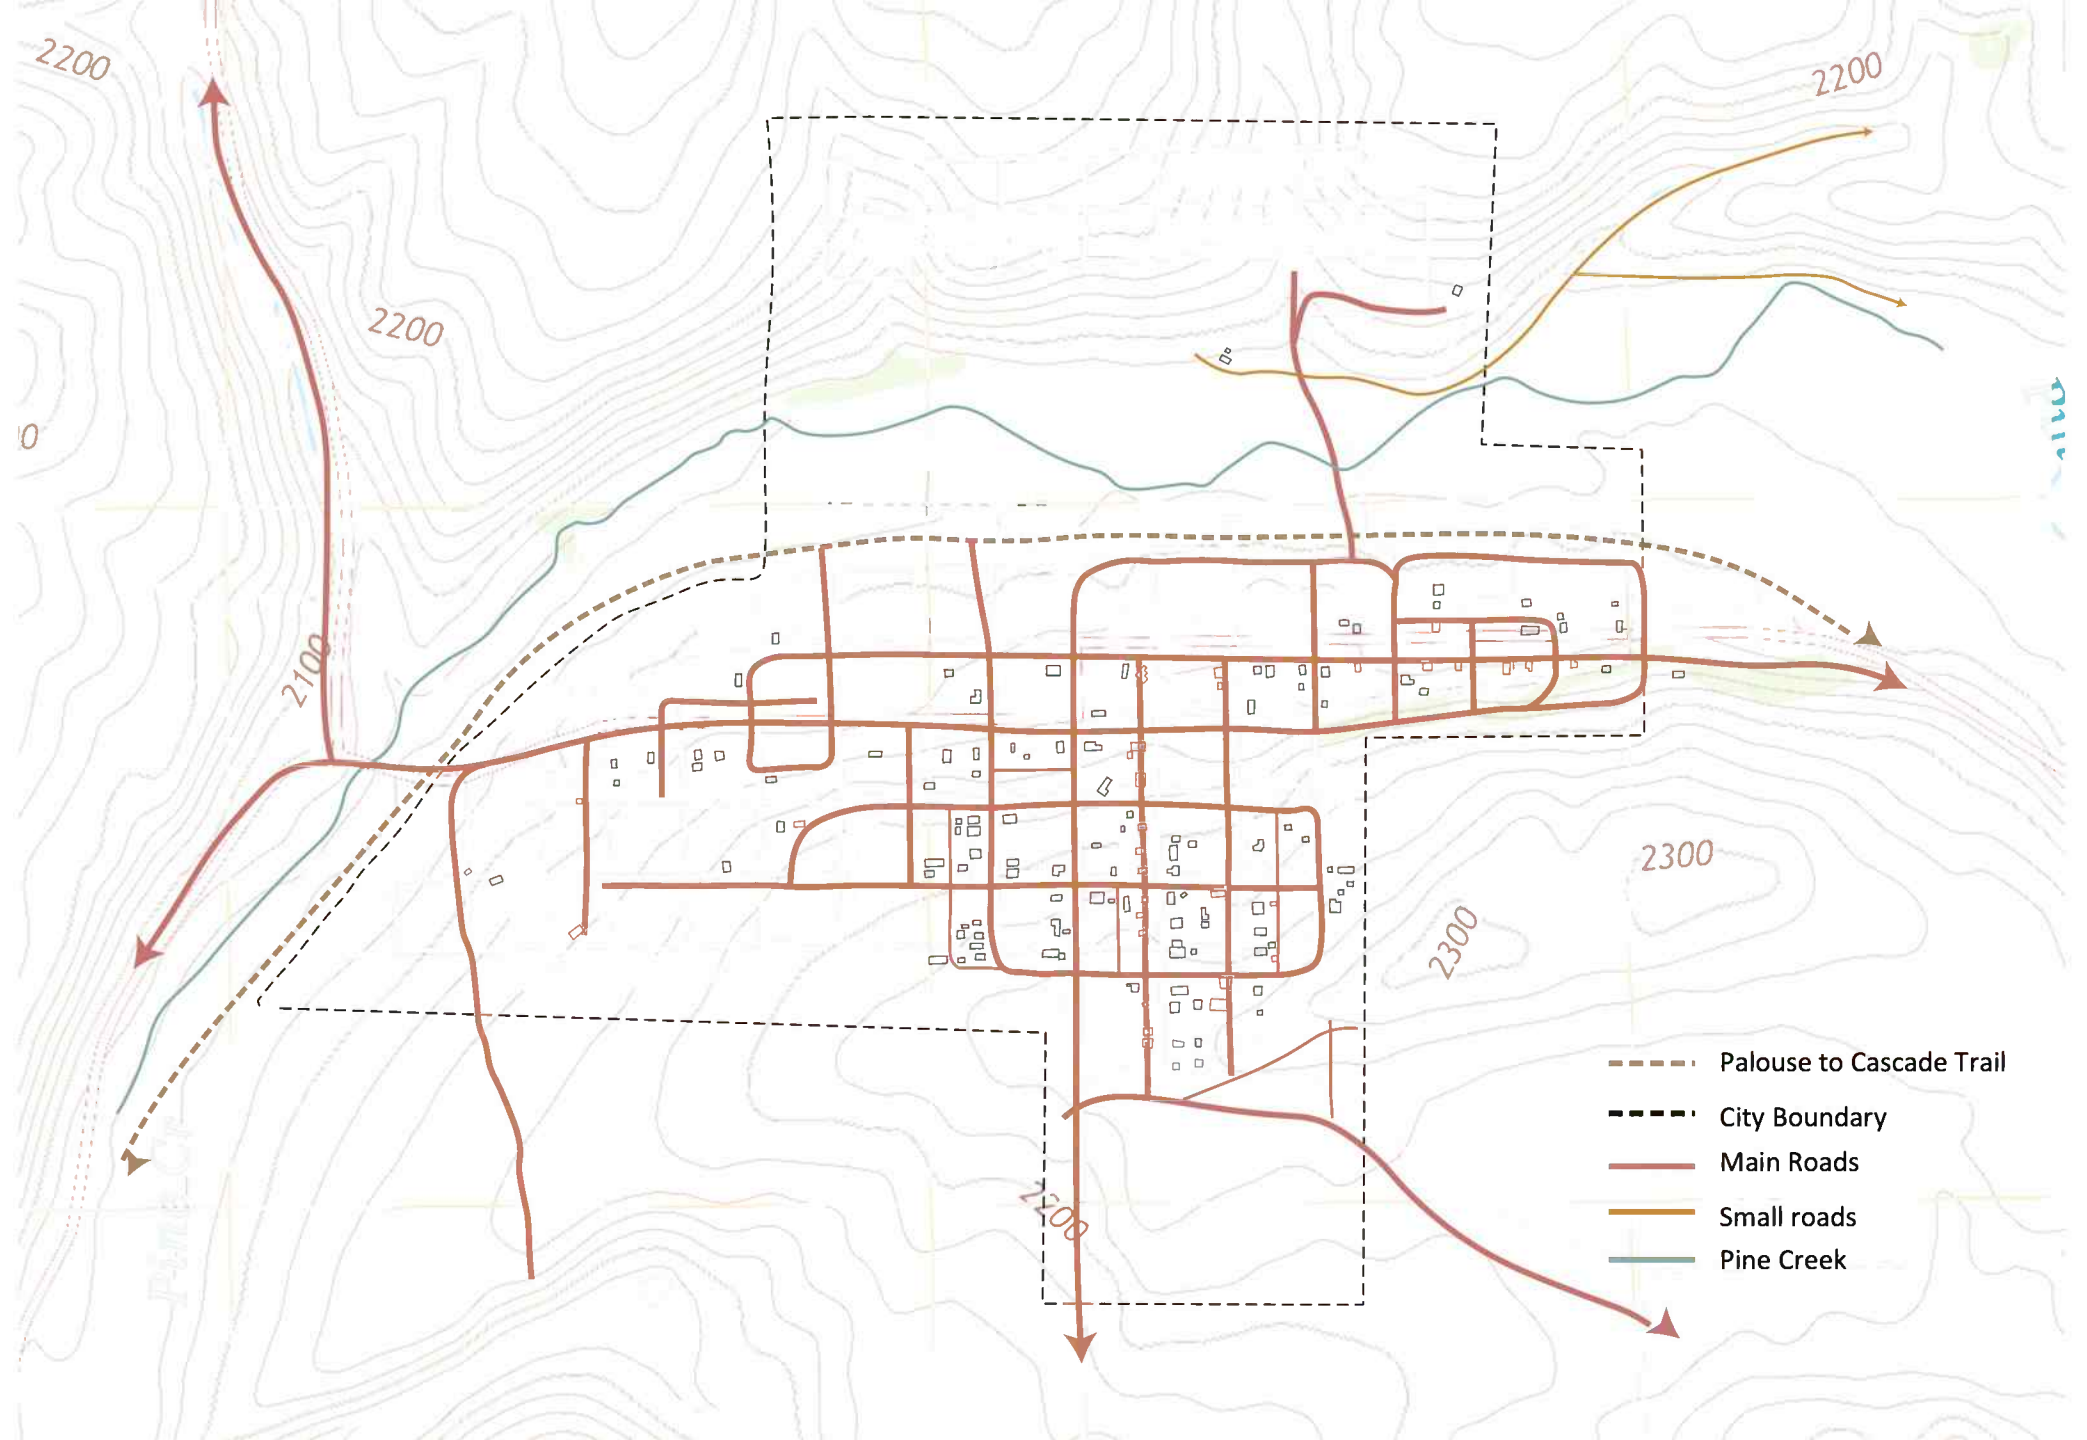

Create beautiful walkable streets
that encourage citizens to step
outside

Bring pollinators and wildlife
through streetscape

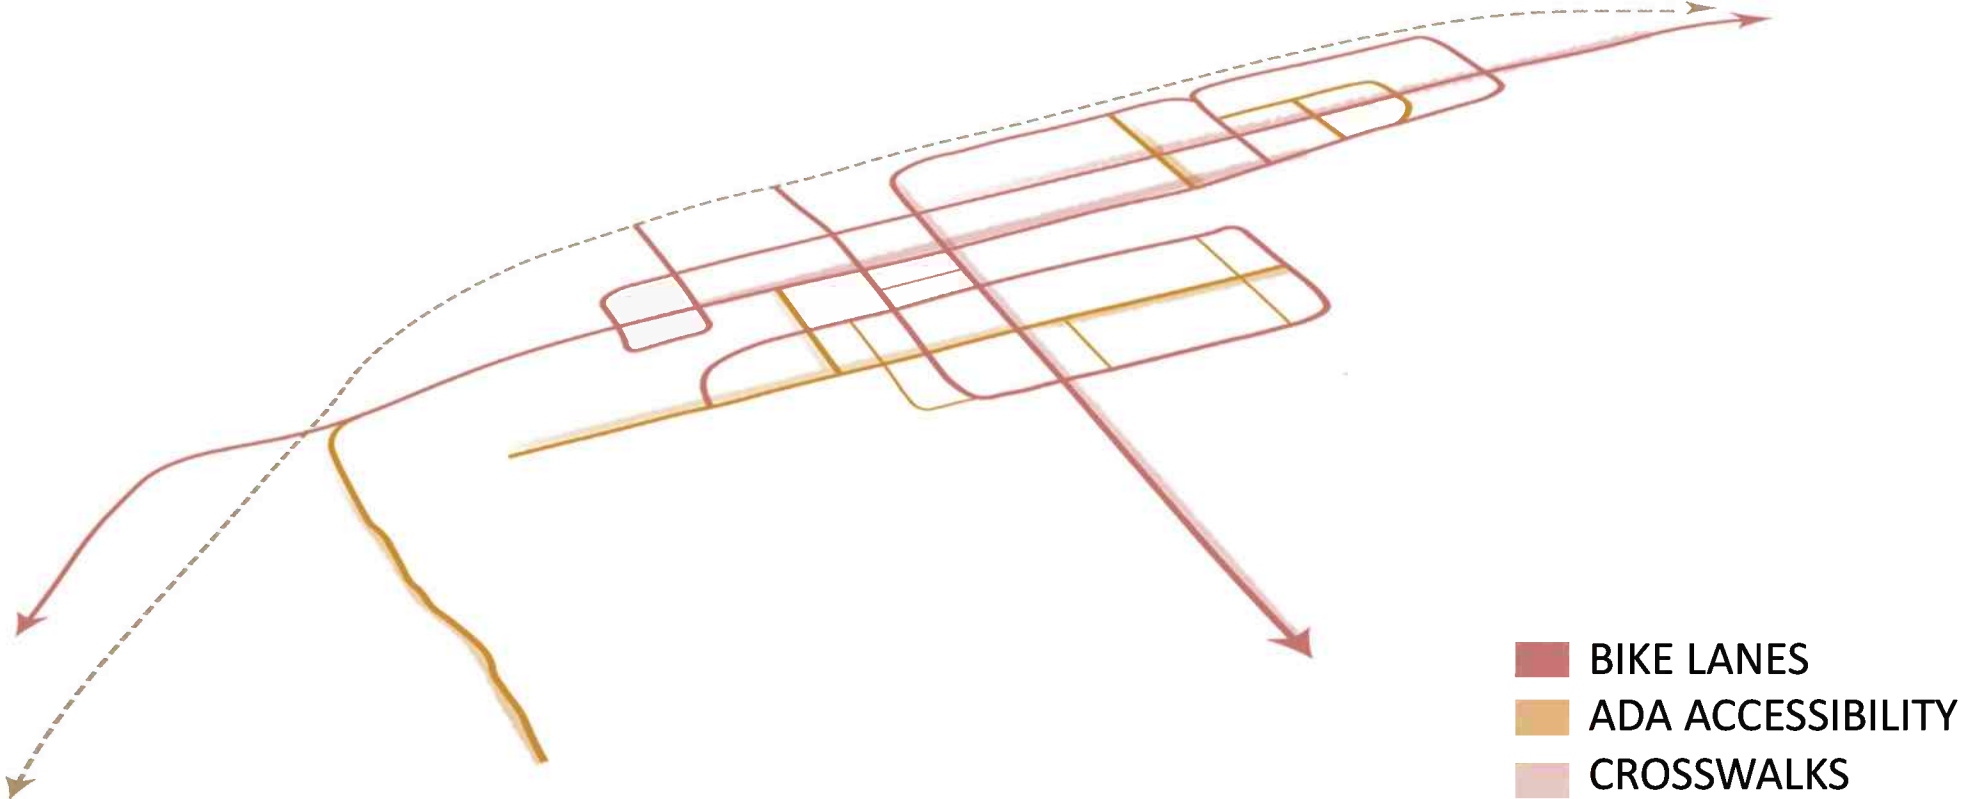

Use streets to lead to community gardens

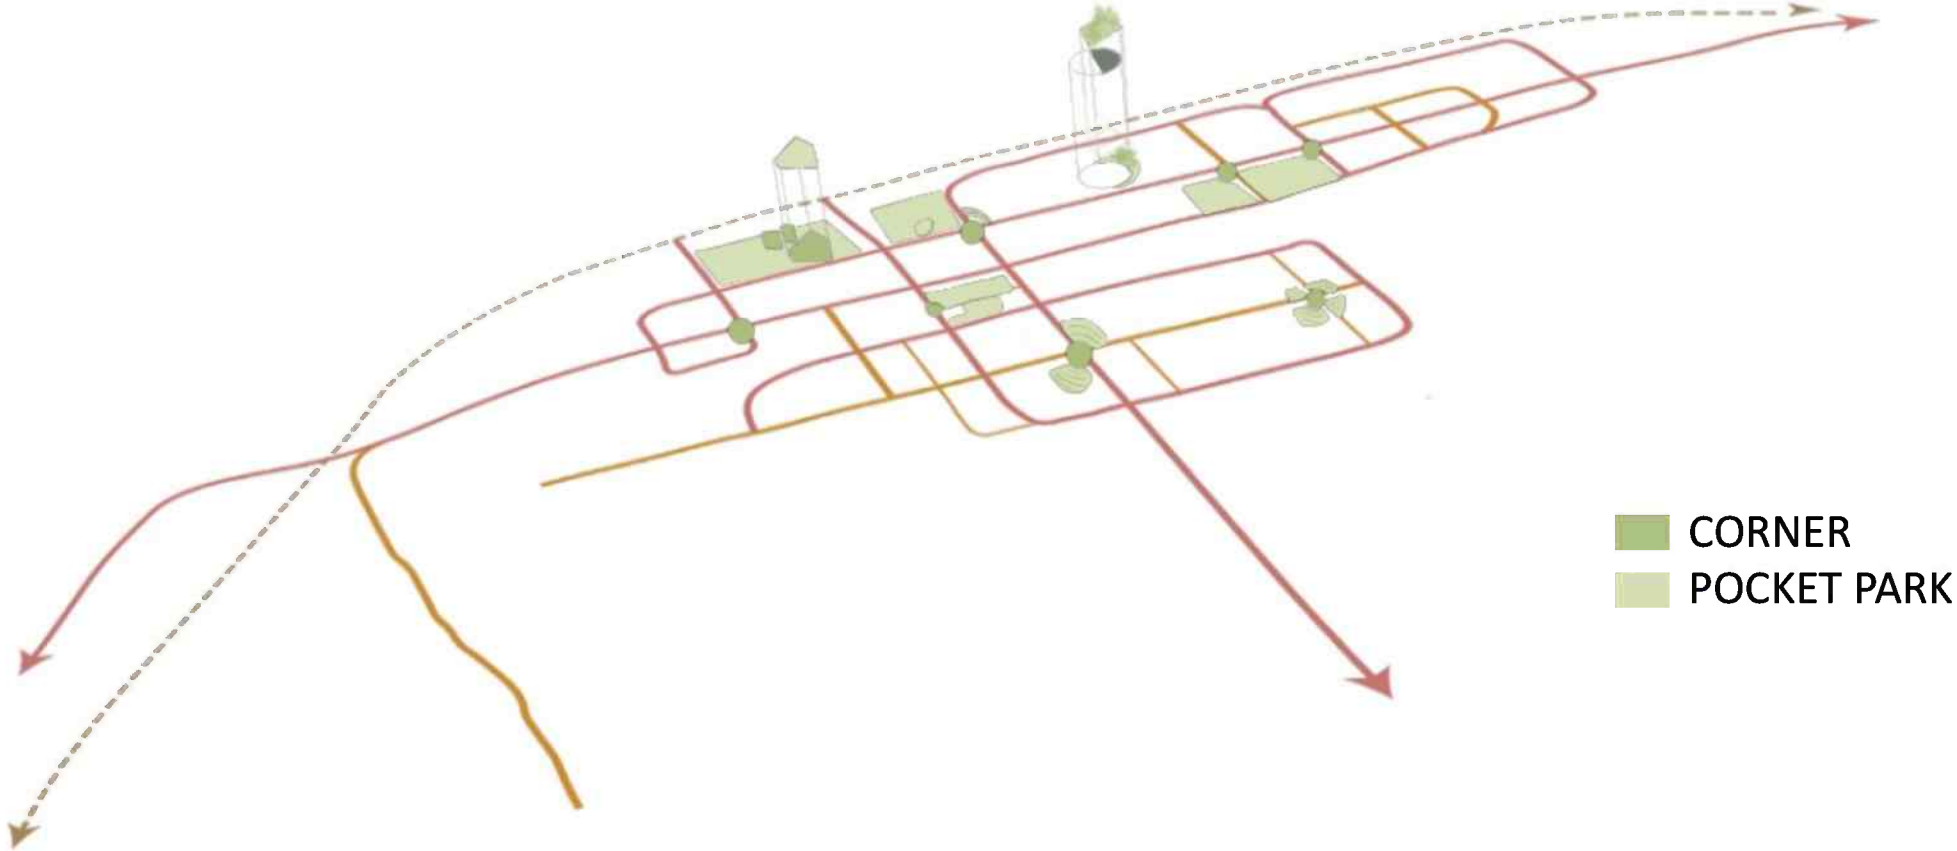

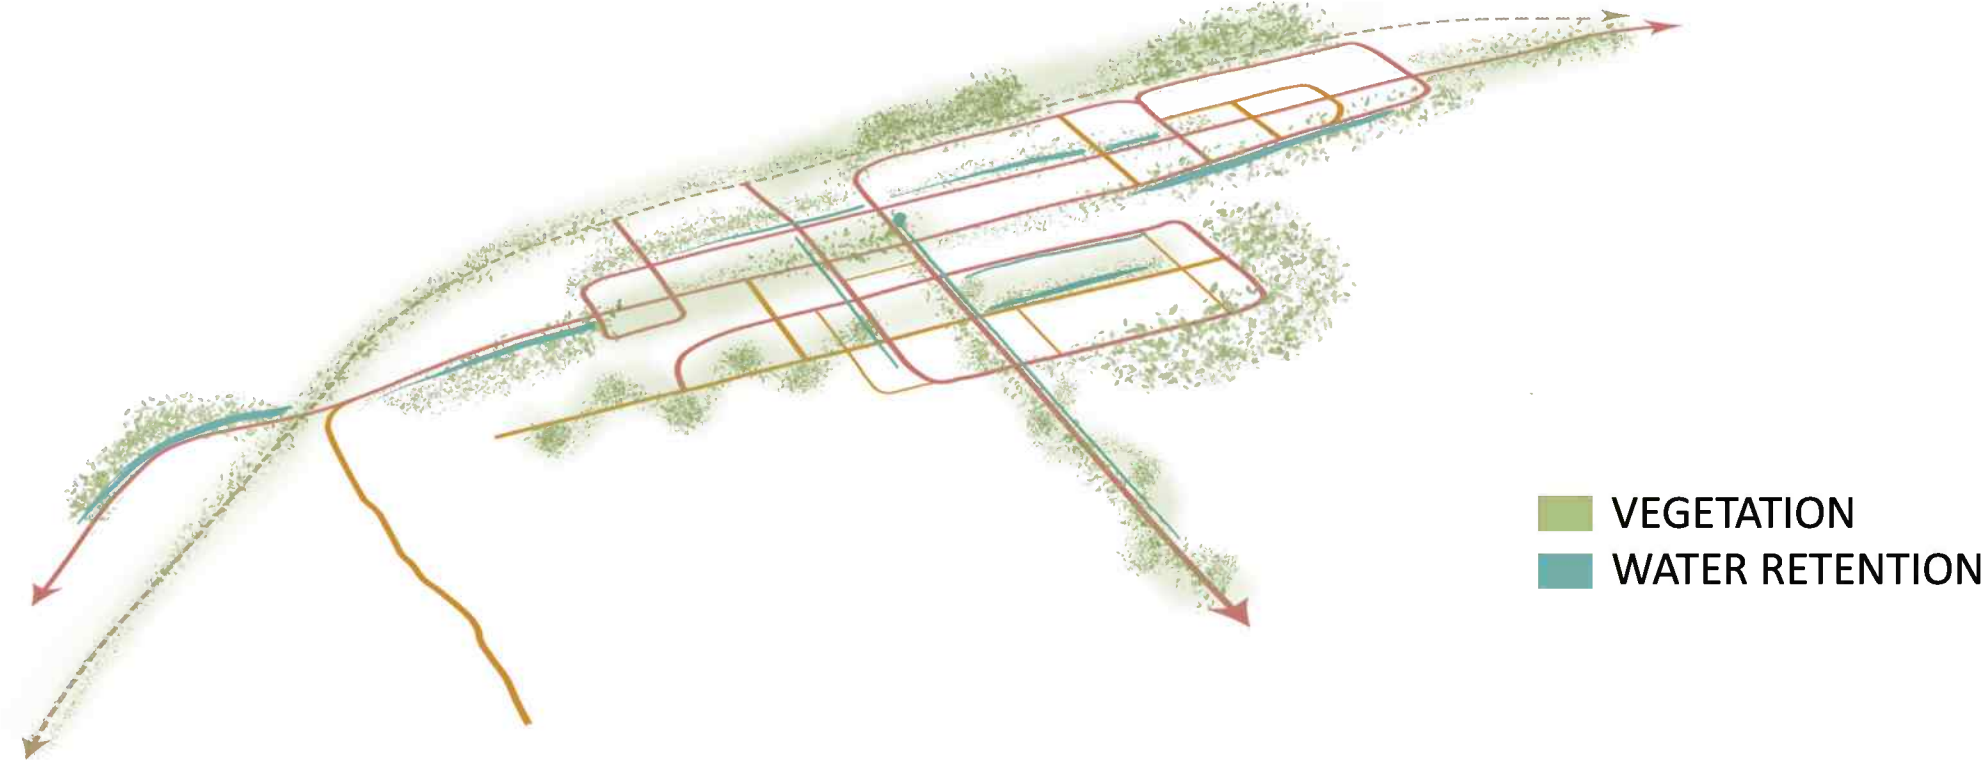

Space for Pedestrians

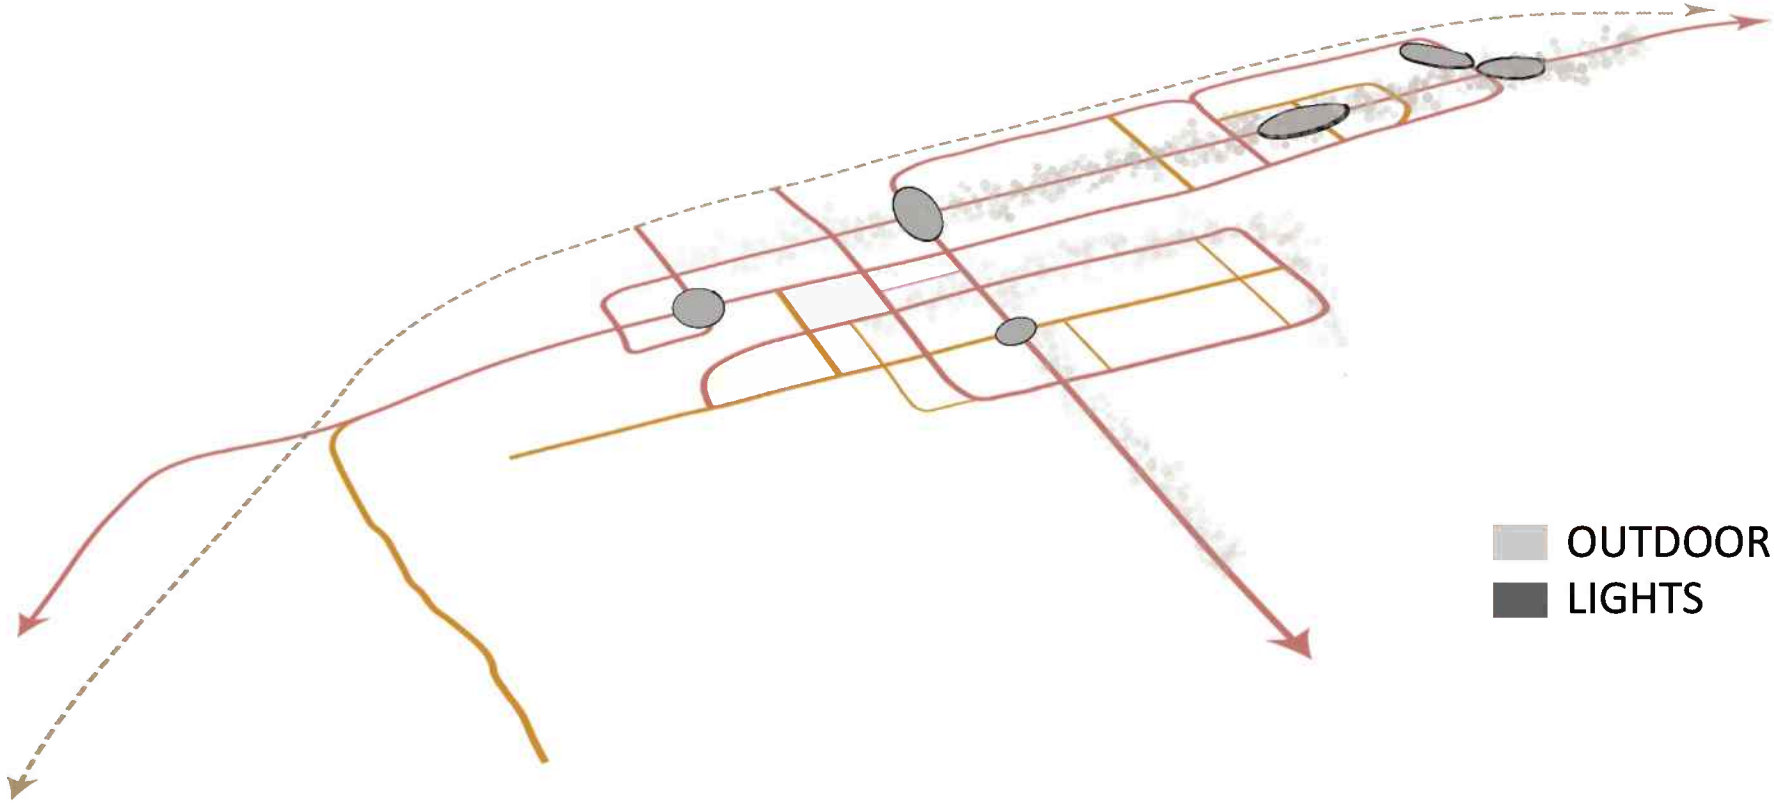

Street corners and pocket gardens

Enhancement of landscape details

Street Furniture

- OUTDOOR FURNITURE
- LIGHTS

■ Main roads (Asphalt)

■ Gravel roads

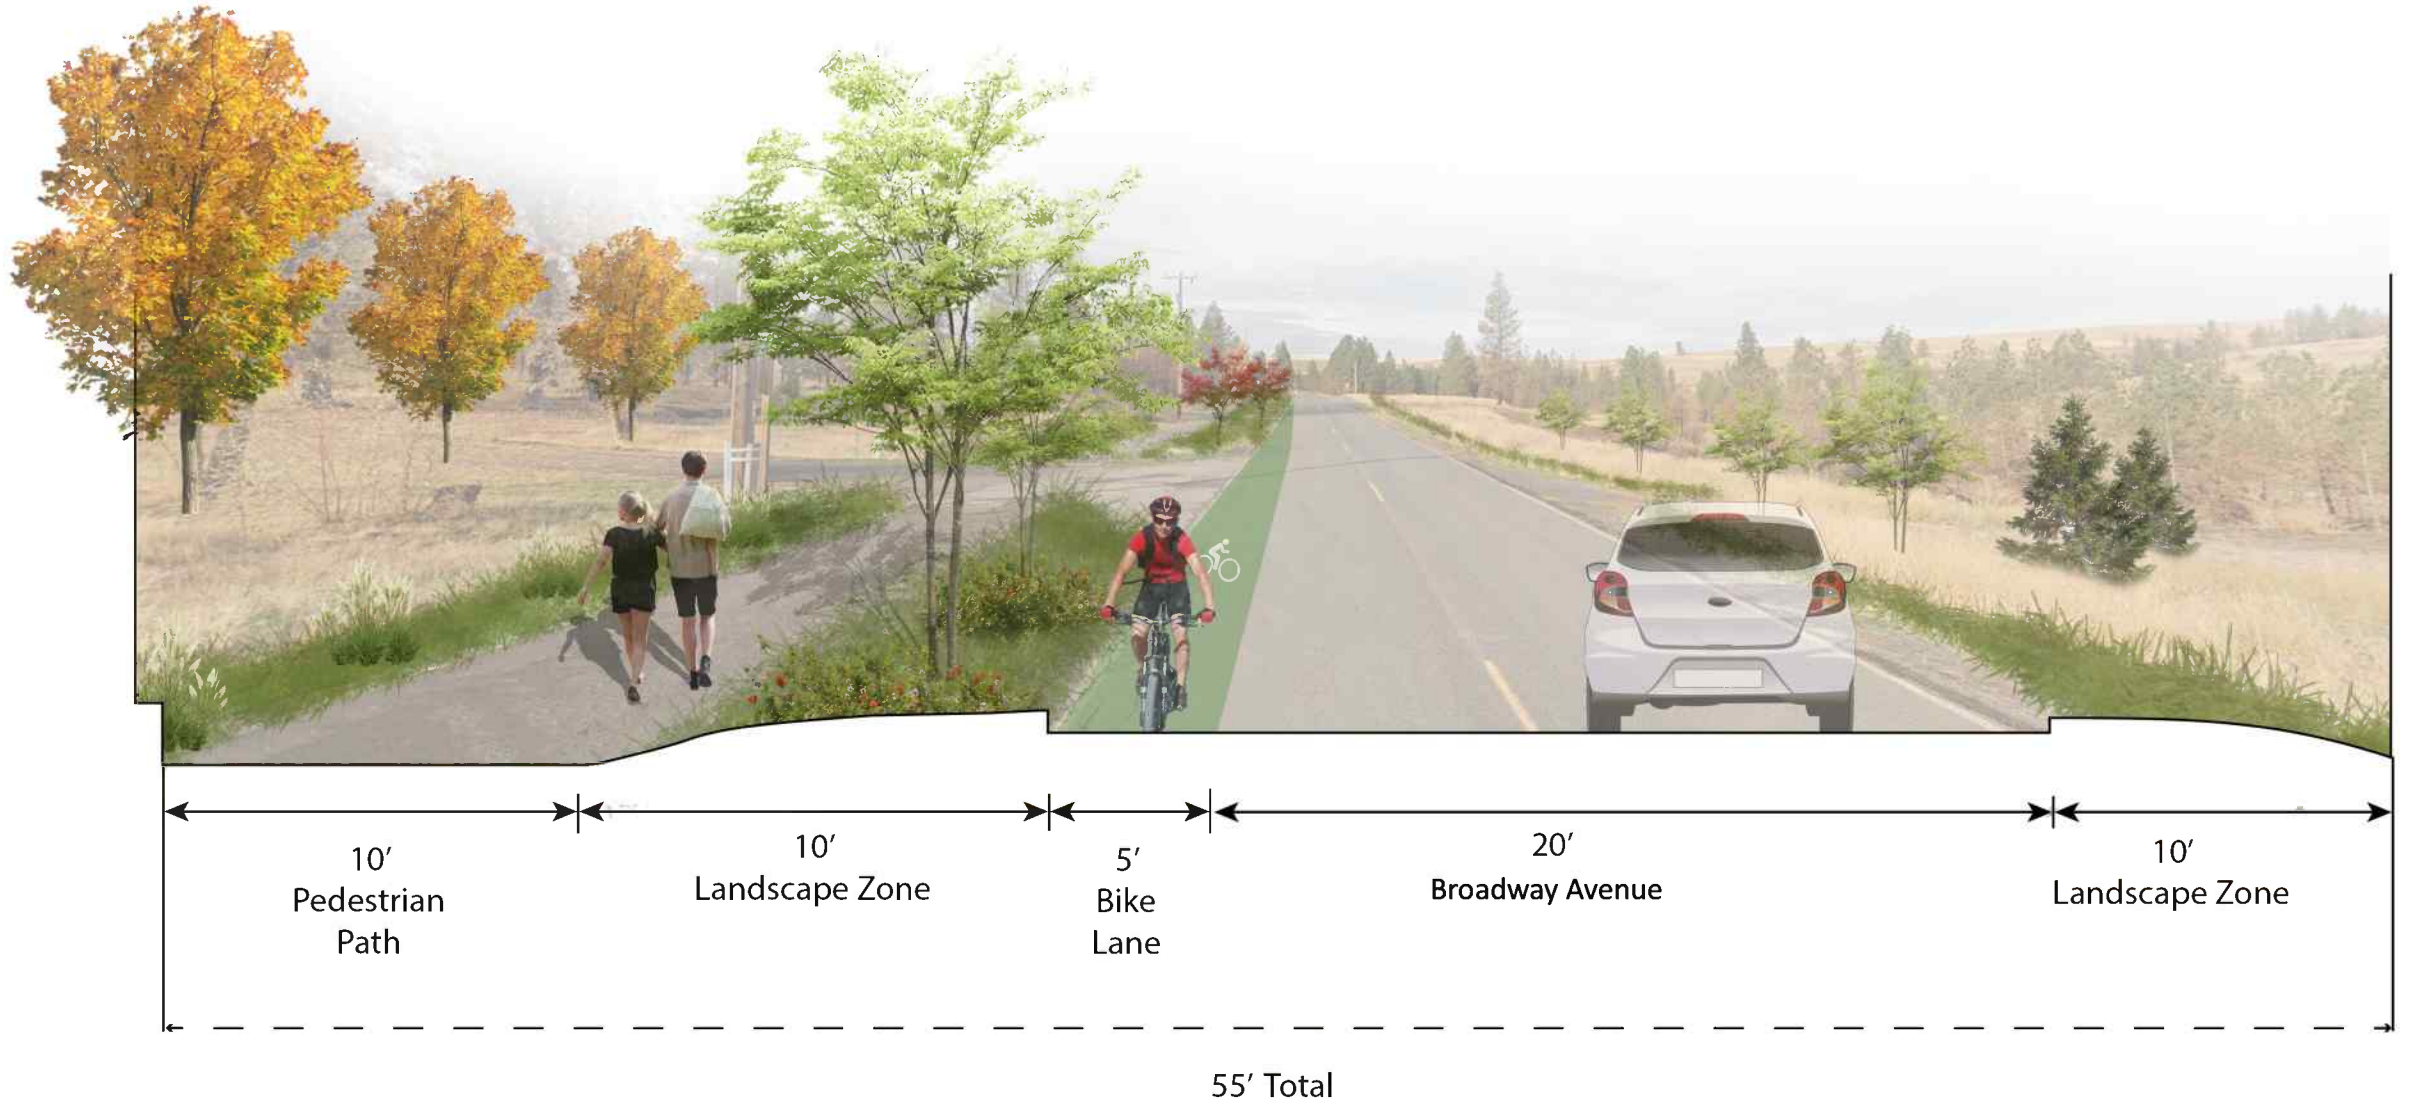

■ Small trails

■ Community gardens
