Final Presentation

Why three sites?

Site Key Features:

Site 1:

- mid-size site
- surrounded by differently sized neighboring homes

Site 2:

- largest site
- accessible via local road
- surrounded by open land (no other homes)

Site 3:

- smallest site
- accessible via major road
- part of a row of similar homes

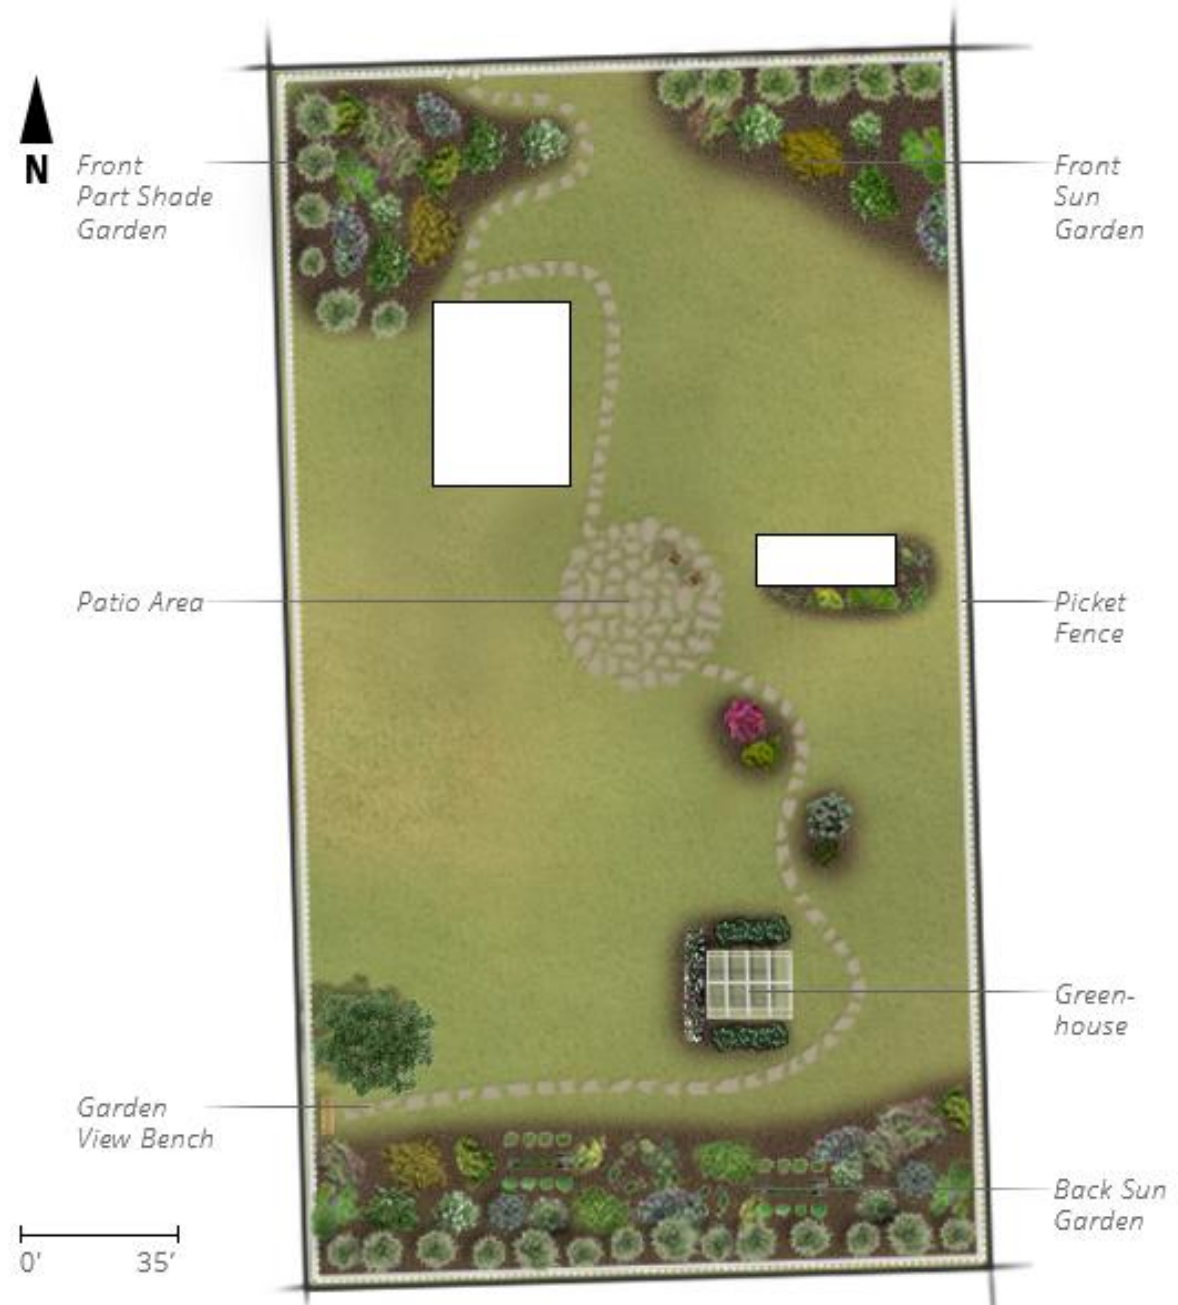

Analysis: Site 1

- Medium sized lot
- Sharply sloped topography
- Direct path from access road to house
- Space to occupy between houses
- Back garden provides privacy & positive view
