

Malden Runway

Marc Angelo Armas
Capstone Project
LND-Arch-485

Project Goal

This project focuses on creating a car-free main street within Malden to increase the population and build community. This is done by having small stores and civic buildings along the main street to create a more inviting space for all to enjoy.

Key Points:

- Car-free main street
- Growth of the town
- Reconnecting with the community

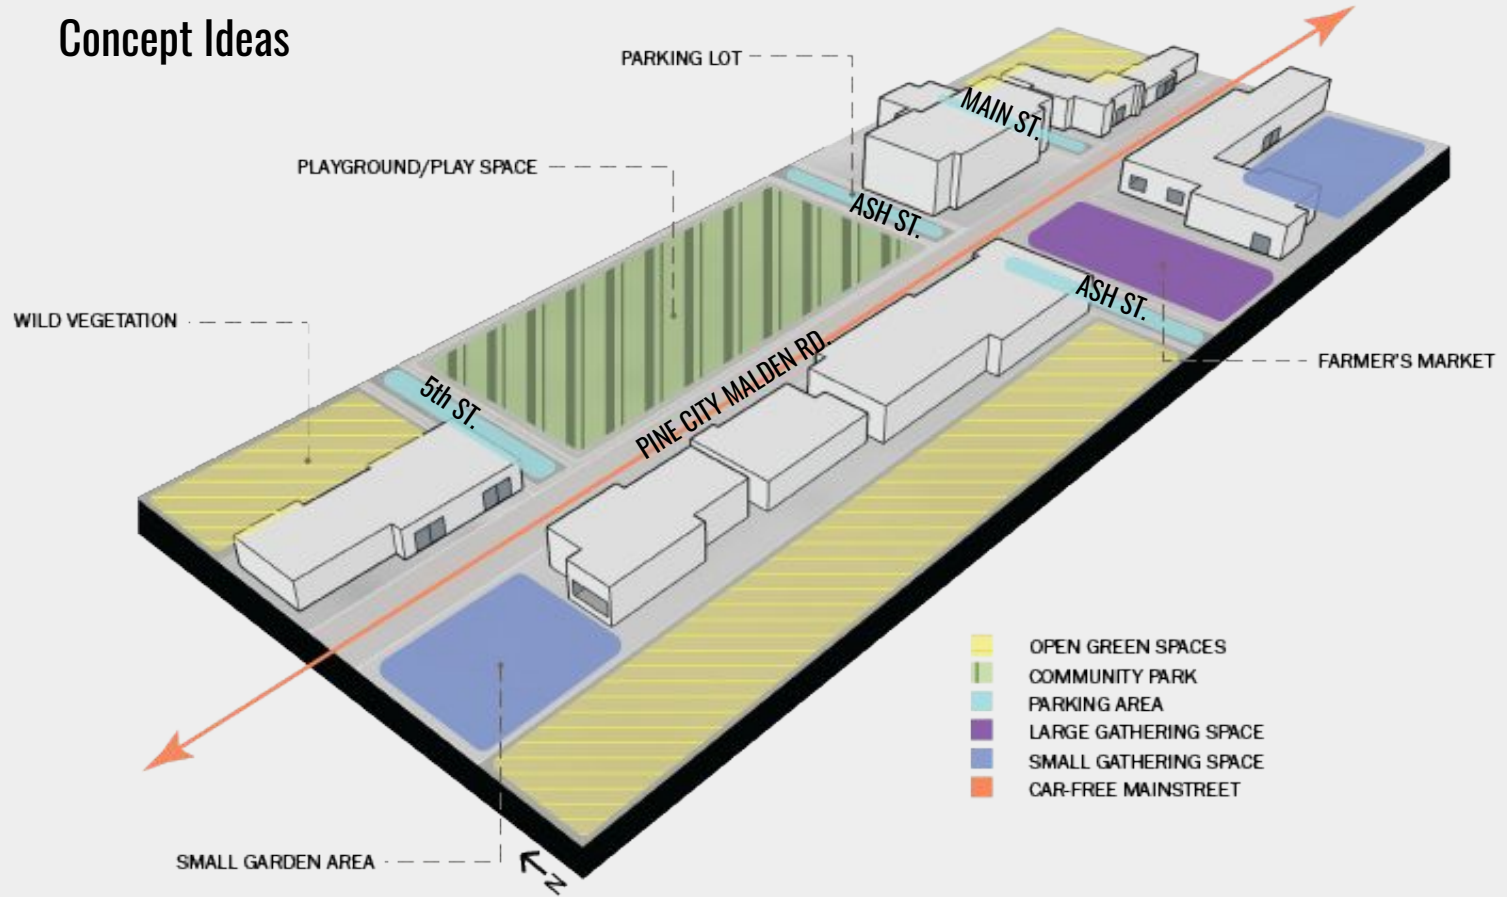

Case Study: South Main Street, Moscow, Idaho
